

Chapter 1: The Grappling Rules

Grappling is a special melee attack used to seize and hold a creature.

When you grapple a target, both of you use the escape DC of the grappler.

A grappled creature can still attack other targets but cannot move away.

Movement while grappling is halved for both creatures involved.

The grapple ends if the grappler is knocked prone or incapacitated.

Goblin Boss

Medium humanoid, neutral evil

Armor Class 17 (chain shirt)
